

Going to the restroom in public places

Now that I am becoming a big boy, I need to go into the Men's restroom with dad or by myself when I need to go potty.

Mom is not allowed to go into the Men's restroom with me, only men or boys can.

I am a big boy now and really should not go into the Women's restroom with mom anymore. The women's restroom is for women and girls only.

When I was little it was OK for me to go with mom, but now that I am bigger, I should be able to go by myself without mom's help.

I need to pay close attention and read what all the signs say, because they are the rules that I need to follow, or the people who work there could tell me that I need to leave for not following the rules posted. This would make me very sad. :o(

So I need to read and follow all the rules posted. :o)
